Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pua et al. (2002/0147882).

As per claims 1 and 8-10, Pua teaches an USB removable memory with replaceable storage medium for optional upgrade and extension of the storage capacity, including an USB connector, a controller and a flash memory, characterized in that: said USB connector (10) and said controller (microprocessor, 220, Fig. 2/controller, 40, Fig. 1a, 210, Fig. 2) are integrated as a memory body; the flash memory (150) as a physically-independent storage component is replaceably and directly is attached to the body (Fig. 1a), and is electrically connected to the controller for the controller to read from or to write to the flash memory. Pua teaches a portable USB data storage device with a built in flash memory storage and a connector 20 that can attach/detach a flash memory card (150). (Abstract, pgs. 1-7) It would have been obvious to one of ordinary skill at the time the invention was made that the expandable flash memory card (150) can be attached and detached from the rear side of the housing of the body via connector 20.

As per claims 2-5, Pua teaches said flash memory part is mounted on the body by means of guide channel and said flash memory part is mounted on the body by means of plug-in connection or elastic fastener connection. (Figs. 1a,1b)

As per claims 6 and 7, Pua teaches the electrical connection between said flash memory part and said controller is elastic tip-touch connection or plug-in connection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
